STAKE PULLER "FORCE"

- Remove Tent Stakes with Ease!
- Honda Power, 160 cc Engine
- Two-Stage Hydraulic Pump
- Detent Valve
- 16" Stroke
- Hardened Pulling Yoke
- 14" Never-Flat Tires
- One Person Operation

The "Force" stake puller has been designed by industry experts to increase your stake-pulling efficiency and save you time and money. This unique piece of equipment will reduce labor time and effort by 70-80% and will easily remove the toughest tent stake.

One person can maneuver and operate this machine with ease because of its 14" never-flat tires. The frame is constructed of high-quality, heavy duty square steel tubing and is powder coated for durability and long-life.

The powerful pump provides 3000 psi to the 2 1/2" hydraulic bore cylinder, producing a pulling force in excess of 10,000 lbs. The stake puller Force even does an excellent job of removing stakes from asphalt without buckling the surface.
